# Portfolio / Blockchain

Blockchain explorer

### **Product:**

Application designed to be the main explorer for its ecosystem. It allows you to manage the entire lifecycle of your blockchain code and smart contracts, from development to production. It provides meaningful business Intelligence and insights into your blockchain apps. The explorer makes browsing blockchain data extremely easy, both for end users and businesses alike.

Duration: Apr 2022 -Oct 2022

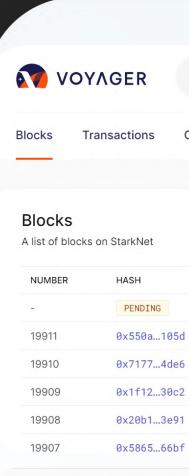

Team size: 4

## **Expertise:**

- Back-end • development
- Data visualizations
- Data ingestion ٠

#### **Technologies:**

#### **Transactions Tracker**

Achieve unlimited scalability with ZK-Rollups

Transactions / Second ② 0.1475

Transactions / Block ② 187.97
