

# Portfolio / Automation

## Cold Outreach Automation Tool

### Product:

Application designed to streamline and automate the process of reaching out to potential clients through email. It automates repetitive tasks such as sending personalized messages, tracking responses and following up, providing insights into what messages are resonating with prospects and helping to optimize future outreach efforts.

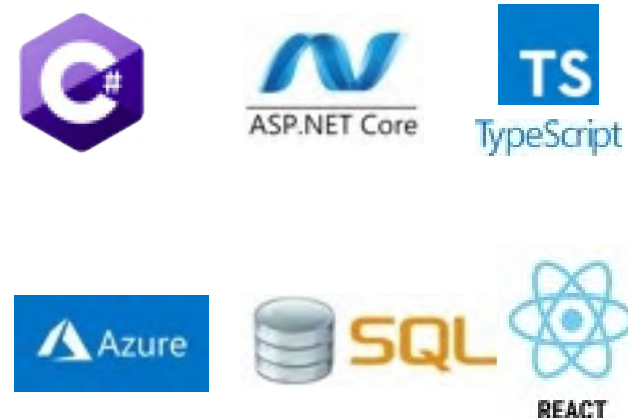

**Duration:** Dec 2022 – TBD

**Team size:** 4

### Expertise:

- Automation
- Back-end development
- Data processing

### Technologies:
